Newbury College
Est. 1948

UCN UNIVERSITY CENTRE NEWBURY

Super7 SUPPORTS SUCCESS

Rooted in pedagogy and metacognition, the 'Super 7' represents the seven core principles that form the foundation of Newbury College's philosophy and approach to teaching, learning, and assessment.

Each of the seven principles focuses on a different aspect of learning:

- **Bigger Picture** helps students understand the structure and purpose of each lesson, ensuring they can see how their learning fits into a larger context.
- **Knowledge Building** focuses on deepening understanding by linking new concepts to prior knowledge. Through expert instruction, guided practice, and rehearsal, students build a strong foundation of knowledge, ensuring they can confidently apply their learning in different contexts.
- **Language Building** develops students' ability to communicate effectively, particularly using subject-specific vocabulary.
- **Q&A Techniques** encourages active questioning and dialogue, helping students validate their understanding through discussion with teachers and peers.
- **Recall and Retrieval** reinforces learning by encouraging students to recall information at key intervals, rather than simply memorising facts for the short term.
- **Assessment and Feedback** plays a crucial role in helping students reflect on their progress and identify areas for improvement.
- **Independent Learning** empowers students to take ownership of their education by developing self-regulation and problem-solving skills.

By embedding these approaches into their daily studies, students gain the confidence and self-awareness needed to excel in their chosen careers.

SKILLS FOR LIFE

T-LEVELS
THE NEXT LEVEL QUALIFICATION

WELCOME

Lee Jamieson, Deputy Principal

Whether you already have a clear goal or are exploring ideas, we look forward to welcoming you and helping you progress from school into a rewarding career and beyond.

As you weigh up your next steps and start your personal and professional journey, we're here to help you make a confident choice.

Newbury College is an excellent alternative to sixth-form. Our career-focused pathways are shaped with employers to help you gain recognised qualifications, real experience, and the skills that open doors to work or further study. Our programmes blend classroom learning with substantial work related activity, giving you the technical know-how and hands-on practice that employers value.

We know moving on from school can feel daunting, and we will support you every step of the way. Our qualified teachers bring industry experience, and our specialist support teams will guide you through your programme, including achieving English and maths, where needed.

HOW TO APPLY

We are confident that you will find a course that interests you at Newbury College. Take a look at the subjects listed in this guide, then search our website to find out more information and apply online.

APPLY NOW

ONLINE

The easiest way to apply. Find the course online and click the 'apply now' button.

DISCLAIMER AND DATA PROTECTION

Newbury College endeavours to provide a wide range of courses and learning programmes that meet the requirements of the local community. Some of the courses in this guide may still be awaiting approval from the awarding body and the majority of courses are subject to minimum enrolment numbers. For details please visit: newbury-college.ac.uk/terms

Data protection: Newbury College stores and processes all student data in accordance with the provisions of the General Data Protection Regulation (GDPR).

WHY NEWBURY COLLEGE?

Newbury College is a mainstream general Further Education (FE) college.

We:

- provide programmes for young people and adults
- offer a range of vocational and technical programmes (courses) with industry experienced tutors
- have provision to meet the needs of young people with SEND and those with EHC plans
- prepare students for careers and life beyond college
- offer degree level study programmes through University Centre Newbury (UCN)
- have a small campus with a friendly community feel

PROGRESSION-FOCUSED

If you're looking for a particular career path then a vocational programme or T Level could be better for progressing to employment or university than sixth form, combining practical learning with subject and theory content.

EMPLOYER-LED

Your curriculum is informed and shaped by our relationships with business partners to ensure you develop the skill and knowledge employers want.

SKILLS-BASED

Study programmes have different assessment methods with a number of ways to demonstrate your skills.

EXPERIENCE NEWBURY COLLEGE

Experiencing Newbury College for yourself is the perfect way to explore your options. We are using technology and events to help you connect with us.

SOCIAL MEDIA

Find out what it is really like to study at Newbury College from students and tutors on our social media platforms. Follow us for real life case studies, important updates and celebrations of success.

DIFFERENT WAYS TO STUDY

FULL-TIME STUDY PROGRAMMES

Career-focused study programmes are ideal for school leavers who prefer practical learning over academic study. These programmes include at least one vocational qualification and other components to get you ready for work and adult life. They are assessed in various ways, not just through essays and exams, which is great for students who like to show their skills in different ways.

VOCATIONAL QUALIFICATIONS

Career-focused qualifications that match the skills, knowledge and behaviours employers need.

MATHS AND ENGLISH

You may need to resit your English and/or maths qualifications. We will support you in achieving your target grade.

INDUSTRY EXPERIENCE

Introduction to employers, work experience and preparation for key aspects of future employability such as interview techniques and application submission.

PASTORAL AND PERSONAL DEVELOPMENT

Opportunities to enrich your learning and develop your skills beyond your main subject of interest. These could include tutorial sessions, sports, clubs, activities, trips and visits.

ACADEMY PROGRAMMES

We work in partnership with specialist providers to offer academy programmes in Performing Arts, Football and Sports.

Partnerships currently operate with:

- Athletic Football Academy
- Basingstoke Town FC Academy
- Kingsclere Performing Arts
- Procision Football Academy

Academy programmes are structured in a similar way to full-time programmes, with the additional industry support of our partners.

SCHOOL WORKSHOPS

Workshops can be arranged to engage pupils and support their career aspirations. We work with schools to identify the areas that students are interested in and, where possible, map activities to their learning objectives and progression goals.

Our professional, industry-standard facilities create the perfect simulated work environment to help provide students with a greater understanding of how to operate in a modern workplace and prepare for the next stage of their progression.

Talk to your school to see if you can get involved.

T-LEVELS

Alongside apprenticeships and A Levels, T Levels are one of the main options for school leavers currently offered at level 3.

The structure of T Levels is different from other vocational programmes. The number of hours you will study increases significantly to approximately 1,800 hours over the two years (including the industry placement). The industry placement element increases to 45 days, but can last up to 60 working days, making it much more meaningful to the you and the employer.

After completing a T Level programme, you will have industry experience and transferable skills to use in the workplace, an apprenticeship or university, having also earned UCAS points.

AFA EDUCATION

BASINGSTOKE TOWN COMMUNITY FOOTBALL CLUB

KINGSCLERE PERFORMING ARTS COLLEGE

T-LEVELS THE NEXT LEVEL QUALIFICATION

APPRENTICESHIPS

An apprenticeship is a job that provides you with a wage and the training for industry standard qualifications.

When you're an apprentice:

- you get paid and train at the same time, with at least 20% of your time spent in off the job training, often at college
- you train to be fully competent in your chosen occupation
- you're on a career path - with lots of future potential for you

We can support you with finding an apprenticeship opportunity with a local employer. For more information on apprenticeships, visit **newbury-college.ac.uk/apprenticeships**

SKILLS FOR LIFE
APPRENTICESHIPS

UCN UNIVERSITY CENTRE NEWBURY

HIGHER EDUCATION

Higher education opportunities are available via University Centre Newbury (UCN), an employer-led partnership of local universities and education providers.

Operating from within the existing Newbury College building and supported by state-of-the-art facilities, our higher education programmes are designed to encourage career progression.

With flexible learning options and programmes designed to suit the skills needs of businesses, UCN delivers higher national qualifications and apprenticeships, without the need to relocate.

Degree programmes are delivered on-site, in partnership with Bournemouth University.

BU Bournemouth University

WHERE TO START

The programme you choose is the first step onto the career pathway that will shape your future. Find your starting point on the chart below to see which level is most suitable. Our team at Newbury College can support you with your choice and ensure that your starting point matches your skills and career aspirations.

ENTRY REQ.*
Min. two GCSEs at grade 2/E or above.

LEVEL 1

Introductory level qualifications for students building up to a level 2 programme.

ENTRY REQ.*
Min. five GCSEs at grade 3/D or above, including maths and English.

LEVEL 2

Designed to give students a good grounding to progress onto level 3 or entry level employment.

ENTRY REQ.*
Min. five GCSEs at grade 4/C or above, including maths and English.

LEVEL 3

Equivalent to A Levels, these qualifications offer a focussed route to higher education or meaningful employment.

UCAS POINTS AVAILABLE

T-LEVELS
THE NEXT LEVEL QUALIFICATION

ENTRY REQ.*
Level 3 qualification, including GCSE maths and English, min. 48 UCAS points or relevant work experience.

HIGHER EDUCATION

A wide range of higher education programmes are available though UCN or other universities. These include HNC/HNDs, degrees and postgraduate degrees.

UCN UNIVERSITY CENTRE NEWBURY

LOOKING TO GO TO UNIVERSITY?

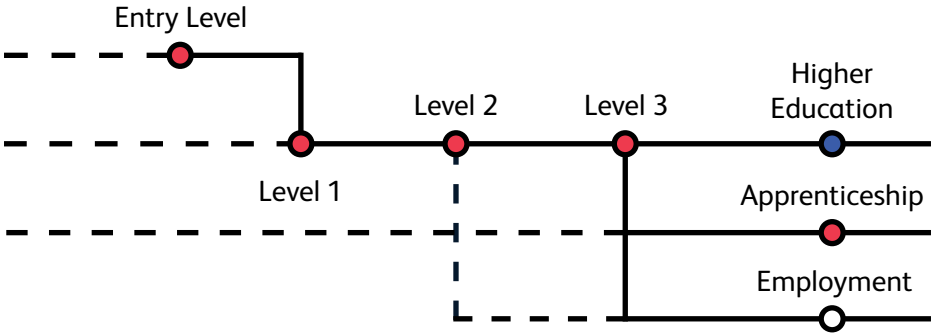

T Levels and other vocational qualifications prepare students for university, with UCAS points, independent study skills and the opportunity to develop a portfolio of work that demonstrates your academic and technical abilities.

*Some pathways may have different entry requirements than indicated above, Subject specific criteria will be discussed at interview.

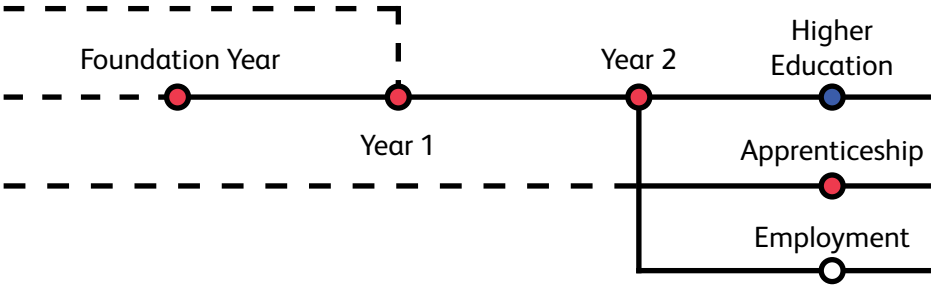

TYPICAL JOURNEY

Your college journey will usually be between 2 to 3 years or beyond, especially if you continue your studies into higher education or if you have an EHC plan. Let's take a look at some typical journeys that young people take with us.

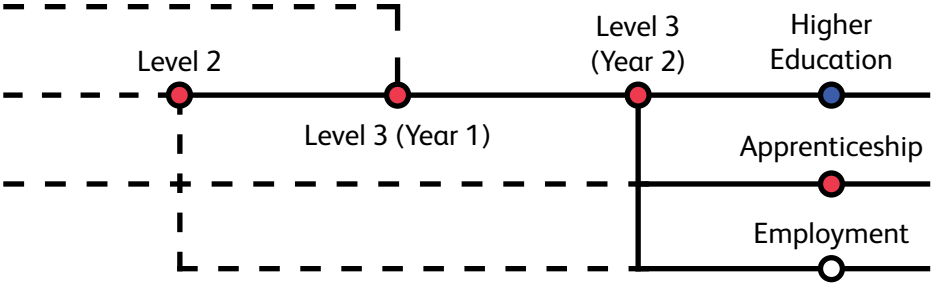

NVQ-STYLE PROGRAMMES (MOTOR, BEAUTY, HAIR)

T LEVEL PROGRAMMES

OTHER PROGRAMMES

HOW IS COLLEGE DIFFERENT TO SCHOOL?

CAREERS, NOT COURSES

Our focus is on helping you prepare for a career you'll enjoy, in an industry that interests you. You should look at your programme as a job, and your tutor as your boss. They will have expectations of you and, along with Student Development Coaches and other specialist staff, will support you to progress into meaningful employment.

TIMETABLE

Most full-time study programmes are based on 3 days in college per week.

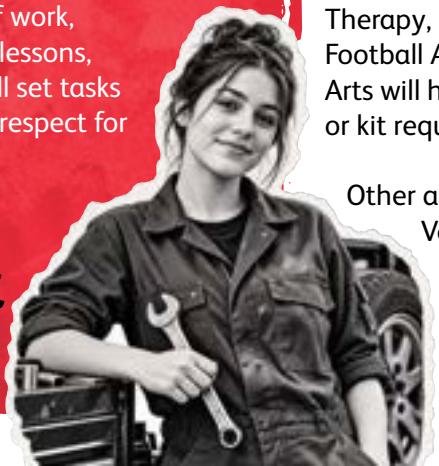

Much of this learning will take place in a classroom, workshop or specialist facility.

You are expected to use the time that you are not in college to complete assignment work and take advantage of work experience and part-time employment opportunities.

PROFESSIONAL ENVIRONMENT

Newbury College and University Centre Newbury are professional, working environments where staff and students are on first name terms.

You should treat the campus like a place of work, attending all lessons, completing all set tasks and showing respect for others.

WHAT TO WEAR

You will be expected to dress appropriately, as if you were in the workplace.

Some areas, such as Beauty Therapy, Hairdressing, Catering, Football Academy and Performing Arts will have mandatory uniform or kit requirements.

Other areas, such as Motor Vehicle, Engineering and Construction will have Personal Protective Equipment (PPE) requirements.

ART & DESIGN

Art and Design fosters employability through creative problem-solving, visual communication, and concept development. Our programmes equip you with industry-relevant skills across traditional and digital media, guided by professionals.

You'll build a portfolio, collaborate on real-world projects, and engage with the creative industry, preparing you for careers in graphic design, illustration, fine art, 3D modelling, or further study.

FULL-TIME PROGRAMMES

- Art and Design

"This course has given me the confidence and support to experiment with new techniques while developing my ideas into meaningful pieces of art."

Kara Bance
Art and Design

HERE TO HELP

Newbury College offers a wide range of services and facilities to support students before, during and after their course.

INFORMATION SERVICES

Our Information Services team can help with pre-enrolment questions about courses, assist with applications and enrolment, provide information about financial support, loans, transport and more. Contact: **info@newbury-college.ac.uk**

LEARNING SUPPORT

Help is available if you need additional support with literacy and numeracy, or require support for learning difficulties such as dyslexia. (See page 26)

WELLBEING

Help is available, via our Wellbeing Coordinator. This includes guidance on mindfulness and managing stress along with advice regarding drugs, contraception and how to stop smoking.

We also offer a referral service to a vast network of support agencies, including CAMHS and other local mental health services.

CAREERS AND UNI ADVICE

We are proud to offer an independent careers advice service to support progression. The team can help with CVs, interviews and cover letters for job and university applications.

Students on a full-time study programme will also have the support of a dedicated student development coach who will support them in understanding the academic attainment they need to develop within their chosen career and help them to map out their career progression journey.

SUPPORT FOR STUDENTS WITH SEND AND EHCP

(SPECIAL EDUCATIONAL NEEDS AND DISABILITIES) (EDUCATION, HEALTH AND CARE PLANS)

WHAT DO WE OFFER STUDENTS WITH SEND?

- Visits and extra support with transitioning from school.
- Support Specialists with a range of SEND and SpLD expertise and training.
- Progression and Academic Support Coaches (PASC) to support retention, achievement and progress.
- Support in some vocational courses (where required).
- Independent Learning Study support for assignment writing.
- 1:1 literacy or numeracy interventions or small group sessions with Learner Support Tutors.
- Dyslexia screening and support.
- Provision of access arrangements such as extra time, readers and scribes, modified resources.
- Assistive technology; for example, Read&Write and exam reader pens.

newbury-college.ac.uk/send

FUNDED FOR LONGER

Young people aged 16 to 18 are entitled to up to three years of publicly funded education or training.

If you have an EHC Plan, funding may continue until you achieve your outcomes, as long as you are under 25, the outcomes remain relevant, and you are making progress. Most students with an EHC Plan spend up to three years in an FE college before progressing.

Local Authorities may not maintain an EHCP after Level 3 (A Level or T Level) study. EHCPs do not transfer to Higher Education (university).

MATHS AND ENGLISH

Maths and English form part of your overall study programme and if you didn't attain a grade 4 at GCSE in these subjects at school, you will be required to take Maths and English alongside your vocational qualification.

HELP WITH THE COST OF COLLEGE

BURSARY FUND

Financial support may be available to help with the costs of attending college.

Vulnerable Student Bursary
Up to £1,200 per year for students in the most vulnerable groups.

Discretionary Bursary
Support with travel, meals, equipment and other course-related costs for eligible students.

Childcare Support
Students aged 20 or over may be able to receive childcare support through the bursary. Students aged 16 to 19 may be eligible through the Care to Learn scheme.

Contact us to find out what support you may be eligible for.

FREE MEALS

Free meals are available to eligible students aged 16 to 18 whose parents or carers receive one of the following benefits:

- Income Support
- Income-based Jobseeker's Allowance (JSA)
- Income-related Employment and Support Allowance (ESA)
- Support under Part VI of the Immigration and Asylum Act 1999
- The guarantee element of State Pension Credit
- Child Tax Credit (provided there is no entitlement to Working Tax Credit and annual gross household income does not exceed £16,190)
- Working Tax Credit run-on (paid for four weeks after entitlement ends)
- Universal Credit

Students aged 19 to 25 with an EHCP who receive one or more of the benefits listed above may also be eligible for free meals.

Eligible students receive a daily allowance for each timetabled day they attend college, which can be spent in The Street Diner.

CAMPUS

1. ENGINEERING AND MOTOR VEHICLE WORKSHOPS

Engineering workshops and labs are fully equipped for both electronic and mechanical engineering courses up to degree and post-graduate level.

The Motor Vehicle workshop has modern facilities to enable students to develop relevant practical and theoretical skills in maintenance, testing and servicing.

2. ART STUDIOS

Art Studios provide a great space for students to explore and create, with dedicated areas for digital art creation and access to a wide range of resources.

3. KITCHEN AND RESTAURANT

A training restaurant and kitchen which enables professional cookery students the opportunity to hone their skills in a real work environment.

4. STREET DINER

A refreshment service in partnership with the College Restaurant. It provides fresh coffee, soft drinks and both hot and cold snacks, which are produced in-house by the catering team and students.

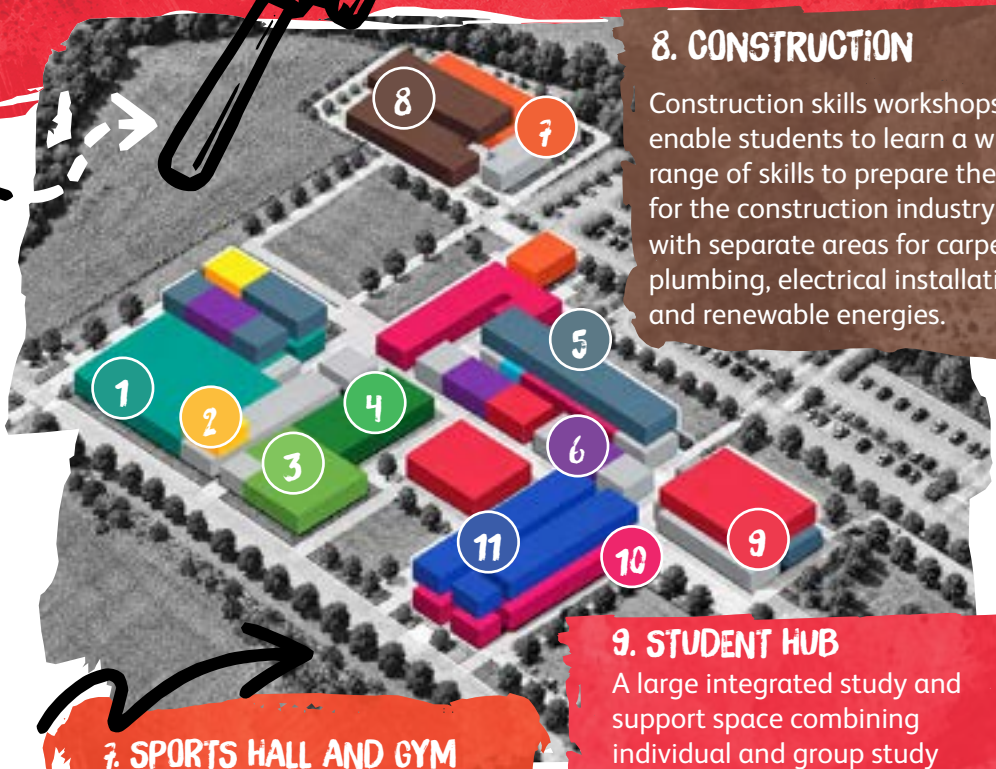

5. CLASSROOMS AND MEDIA SUITES

There are many spacious, modern classrooms complete with interactive screens. Our media suites are kitted out with Macs, fully installed with the latest Adobe software and include a recording studio.

6. INTUITION SALONS

Professional hair and beauty salons offer a real working environment for our students to develop their skills with paying clients.

8. CONSTRUCTION

Construction skills workshops enable students to learn a wide range of skills to prepare them for the construction industry, with separate areas for carpentry, plumbing, electrical installation and renewable energies.

9. STUDENT HUB

A large integrated study and support space combining individual and group study areas with access to a wide range of resources and support services.

7. SPORTS HALL AND GYM

Our Sports Hall is a fantastic addition to our College space and expands the range of sporting and enrichment activities available to all students.

The Gym provides students on relevant programmes with the opportunity to participate in physical fitness and well-being activities.

10. FOUNDATION LEARNING

High-needs facilities with unique resources for learners with specific requirements.

11. UNIVERSITY CENTRE

University Centre Newbury (UCN) is a specialist area providing higher education courses such as HNC/HNDs and degrees.

GETTING TO COLLEGE

BY BUS

Getting to college is easy and affordable with regular bus services, operated by Newbury & District, connecting Newbury Wharf with Newbury College and the neighbouring Retail Park.

BY RAIL

Newbury College is a short walk or bus ride away from the Railway Station. Trains to Newbury are operated by GWR and provide services from London, Reading, Thatcham, Hungerford and Bedwyn.

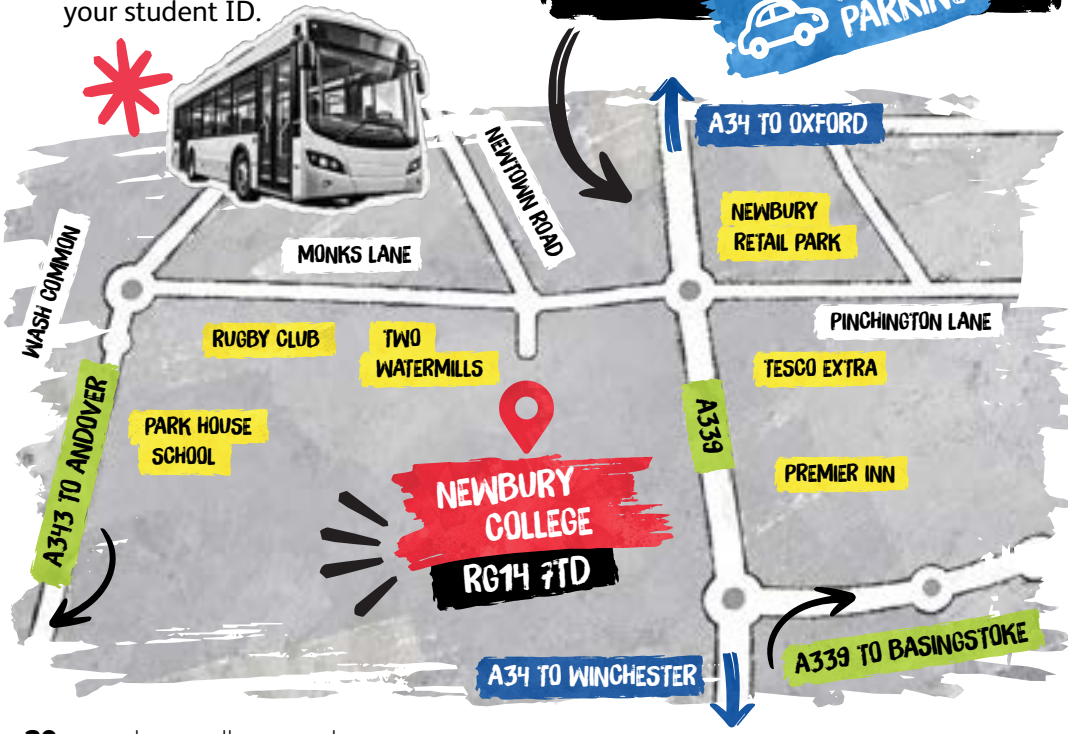

BOOST

Students can save up to 1/3 on bus travel using Boost. If you are aged 18 & under, you can buy Boost tickets without ID. If you are aged 19-21 you can buy Boost tickets on production of your student ID.

BY ROAD

FREE PARKING

COURSES FOR ADULTS

FREE MATHS AND ENGLISH

Free maths and English courses are for anyone who wants to improve their numeracy or literacy skills, whether you are learning English as a second language or improving on your grades from school.

HIGHER EDUCATION

Higher education opportunities are available through University Centre Newbury (UCN), an employer-led partnership of local universities and education providers. See page 8.

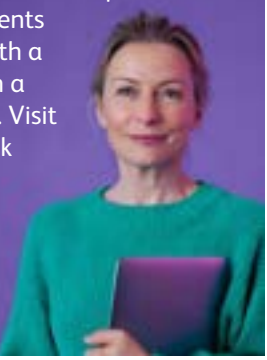

PROFESSIONAL AND PERSONAL DEVELOPMENT

We offer a range of professional and personal development courses designed for adults looking to enhance their skills and knowledge. Whether you're aiming to advance in your career, switch fields, or simply pursue a new interest. With experienced instructors and a supportive learning environment, you'll gain practical skills and confidence to achieve your goals.

- Digital Skills (FREE)
- Education and Training
- Electrical Installation
- Engineering (Skills Bootcamp)
- Spanish and Italian
- and more...

FREE STUDY ONLINE

These flexible courses are available for adults throughout the year and allow you to work at a time and pace to suit your needs. Students are supported with a personal tutor on a one-to-one basis. Visit study-online.co.uk
